

## DEEPER INSIGHTS INTO THE ILLUMINATI FORMULA by Fritz Springmeier and Cisco Wheeler

### PODCAST 32

### HOW HELP COMES ABOUT FOR MIND CONTROL VICTIMS

[continues]

### MAPPING

The subject of mapping a system concerns the task of putting down on paper how the mind of the victim has been structured. It goes almost without saying that the therapist should be familiar with what has been written by the authors of this book in both this book and the Vol. 2 Formula book. The information in our books will take out lots of guesswork on mapping a system. If one understands programmed DID (MPD), one will immediately know numerous items & alters that a system will have to have. Just as common sense teaches us that a particular type of farm will have particular items, likewise an Illum, system HAS to have many of the items we have described in detail. For instance, on a regular 13 x 13 grid of programs, the first square typically named 6.6 will have the program SEE NO EVIL, DO NO EVIL, HEAR NO EVIL-No-talk type messages linked to a suicide program. The alters will have both an internal world created for them, as well as a secret code grid. In both the internal world and within the grid, will be demonic interjects, demonic constructs. Within both

the computer grids and the alters worlds, there will be a center point upon which things will collapse, but can be rebuilt by the subconscious mind which is still programmed. The structuring is a layering effect. The assistant programmers will have the small child write scribbles, because the scribble designs are important for the subconscious. The structuring begins in the subconscious. There are many reasons why mapping is important. First, many alters will be in denial that they are part of a multiple personality system. They need to break their denial to move forward. Second, many alters are unaware of how their system is constructed. They need to discover their structure to begin alter communication. Third, for the skilled therapist, there are approaches that can be taken to get past surface programs to erase large sections of programs. Fourth, as the therapist tries to organize the vast amount of information & notes they take, it is very helpful to be able to use the preexisting organization of the client, in order to file information. If the therapist does not keep track of the structure, they will have a pile of disorganized notes. Fifth, mapping will expose positions of alters, who may otherwise remain undiscovered due to their oaths of silence. Initially, the therapist must build trust. The therapist may want to work at this before the entire support team is brought together. Trust is the foundation for mapping. It will flow down through a system and work like a protective cover. The victim needs to begin to journal, do art work, or if possible talk to the therapist. There will be powerful "no-talk" programs, like the one just mentioned on the 6.6 cell on the alpha grid. Somehow, in whatever fashion will work, the victim will need to circumvent the no-talk programs and the suicide programs, to begin to discover him or her self. The alters can begin to do a history, who are they, what has happened to them, what is their job, why were they "born", how old are they, etcetera. Many of the front alters will at

best only be aware of 4 or 5 of themselves. All parts of a programmed multiple are important to recovery. Each part needs to discover what family of alters it belongs to, and how it can interact & communicate with others. Becoming co-conscious with each other is a powerful step toward defeating the programming. Alters can not truly be eliminated from the mind of a programmed multiple, because they are a dissociated part of the mind. That is why the programmers build dumping places for “dead” alters and other unusable parts, and fragments. Demonic introjects can be cast out, and indeed need to be. Ministers that try to tidy up the mind of programmed multiples by casting out alters have caused untold misery to many victims. At best, they have simply caused the front host alter to go into denial that the system still has many alters. This greatly aids the programmers and handlers, because this is what they want to happen. Working on an alter system with programming running is very difficult. It is like working on an airplane that is flying. The therapist begins to feel like an acrobat, trying to carry out skillful stunts. It is understandable how for temporary purposes, the therapist may tell the victim: “your mind created that, it can do away with that.” Alters, landscapes, programs, etc. are simply constructs of the mind. If the person’s mind will accept the removal of a mental image, the therapist may want to use such abilities to gain some control over the “flying airplane” that they want to ground so they can work on it. But removing alters, computers, programs etc. are not easy answers. Alters are actually parts of the mind, and the mind naturally uses its survival instincts to protect each part. Computers and programs will rebuild unless their anchoring mechanisms are taken out. Erasing memories is another trap. Memories are coded and laid in on the grids too. Again the simple solution seems to be to delete the memories—but that again is not the answer. That simply drives the memories deeper, just like alters will secretly

hide deeper if they think the therapist wants “to kill them”. The victim’s mind is very skilled in moving its dissociative pieces around, so it will stay a jump ahead of the therapist. Memories can be “washed” with the negative emotional parts of them saved in a jar. In order to map, the therapist may want to teach alters how to construct safe places in the mind. Experience has shown, that if a hypnotic-created image of a safe place is constructed, the internal programmers can usually figure out a method to destroy the safe place in approximately 24 hours. With ongoing work, the imagery may survive several days. As the reader has begun to see, the solution to mapping is simply lots of hard work. Most of the short cuts do not work. There are skilled methods to access deeper alters who know the maps of the systems, but remember the internal worlds are mental constructs that can be shifted by the mind. If there is a skilled member of the support team who is around the victim most of the time and who can take notes, then a great deal can be learned. During day-to-day life, many things will trigger the victim, and as the programming falls apart the MPD will become more visible.

To those who are unfamiliar with programmed DID (MPD), especially relatives, they may view the therapy with horror, because instead of a single person (the front host) now they have a team, or a group, or a world of alters who come and go. It seems that the therapy has created the multiplicity. The therapy has only uncovered what was hidden in secrecy by the programming, but those unfamiliar with programming generally don’t understand what is taking place. Many alters will only show themselves in specialized situations. This is why a variety of activities, a variety of triggering movies, and a variety of hours/days/months are needed to begin to spot and identify new alters. This is where the limited time that the therapist sees the client greatly limits the therapists ability to understand what

their client is about. The host alter may come into therapy for years, even though the deeper parts are coming out at night, when nobody else will spot them. There are a variety of methods to get alters to surface, and a variety of ways to get them to dissociate. If a therapist needs to get beyond an alter, they might try talking about something that will cause the alter to dissociate, and then doing things that encourage the part they want to come up. Mapping will call for trust, ingenuity, patience, and good notekeeping. We recommend it.

## HOW TO DEAL WITH MAZES

The internal structures of an alter system will have mazes constructed. Mazes are power structures to reinforce feelings of being helpless. Mazes reinforce the helplessness a victim feels. When a child undergoes the horrendous traumas that it is subjected to by sadistic programmers, it knows completely that it is helpless. The child is placed into small enclosures such as isolation booths, boxes, ice boxes, cages, caskets, caves, corners, closets, drawers, hung in isolated forests, stuffed into laundry hampers, holes in the ground, refrigerators, soundproof rooms, tin rooms, under sand, in car trunks, under water, and wells. Some victims of mind-control have endured all of the above list and perhaps more. The mazes connect to those memories of isolation and helplessness. When the alter gets trapped in a maze, all the strong child memories of isolation and helplessness flood the alter, and immobilize it with fear. The mazes are attached the mote of nothingness sensory deprivation memory, where the child victim was totally trapped. During a panicked state, the child was placed in a maze. The maze was put in during trauma, go back to what you know as truth, the programming is a lie, do a reversal. To get through the mazes the recovering victim needs to

- a. stay calm,
- b. remember that the maze is a hypnotic suggestion.
- c. take your power back by acknowledging that the maze is only a hypnotic suggestion, and you don't need to play this mind game.
- d. common sense & calmness will get you out.
- e. shrink the maze down, because the maze will seem tall to the child. Shrink the maze down mentally until you can step over it. Start at the top until you can step over the image. When the image of the maze is as small as a speck of dust, blow it away, or sweep it away. If the alter must, use a magic wand, or star dust. Or if the alter is Christian use prayer.

## HOW TO DEAL WITH MIRRORS

Illuminati multiple personality systems are structured with many mirrors. As an alter attempts to move in the mind to try to connect with another part (alter or world) of the mind, they often come up against mirrors. The mirrors are guarded by demons, and may have alters attached to the mirrors too. The therapist should never have the client break the mirrors, unless it is done in a very specific way.

The victim's mind is able to visualize a glass room. A mirror that needs to be broken can be placed within a glass box made of 2-way mirrors itself. Then the demons within the mirrors will be confined in the box when the mirror is worked on, rather than have them scatter throughout the entire alter system wrecking havoc like a herd of pigs. The alters which are part of the mirror will also be contained. Once a glass room (box) is created around the mirror, the box can be flooded with the blood of Jesus Christ of Nazareth. Any demonic forces attached to the mirror will be forced to leave, while the alters will stay behind. This way the damage is contained & confined. The authority &

power of Christ, who is the victor, is powerful if properly used. The demons can be respectfully commanded to obey & go back to Christ their Creator for orders. Demons are under an authority structure and understand power & authority. The demons are not objects to ridicule, even though we do not agree with what they stand for & what they are all about. They will not respect your authority nor mine, but they will respect the name of Jesus Christ of Nazareth. Please do not use some other name like Buddha. If the mirrors are not broken in this fashion, all hell breaks loose for the alters near the mirror. At times, mirrors are constructed within a system so that they are attached to trap doors & tunnels. The mind can be asked to tell whether the mirror is part of a tunnel system or something else. These systems are designed somewhat on the style of the Great Pyramid, in that there are secret tunnels, chambers and trap doors. "Dead" alters may be buried in places.

PROGRAMMING, foundations, destruction of (as taught by an ex-Illuminati programmer)

Everyone comes upon a particular scenario in life, with their own understanding, their own perspective, their own set of things they consider to be foundational truths.

If we really want to understand the mind-control programming, we need to see it in the same context that the Illuminati mind-control programmers see it. Up until now, there has never been any Illuminati programmers who saw any purpose in breaking their oaths and revealing programming from an Illuminati programmer's viewpoint. I have decided to take a bold step and allow you to see how my programming alters understand the programming. This section is like the fragile breath of a baby beginning to test a new world. Each time one sees the miracle of life, as a

fragile baby tests out the air of the world with its first breaths, and discovers a new world beyond the womb, it is a powerful testimony of what our God-given life is all about. Our traumatic birth from the cocoon-like world of slavery into freedom is a miracle of Life. Life has a force of its own, and so will our own struggle for freedom.

We can say at the outset of explaining things, that we are not in a position to prove what we have seen and experienced. We could rummage through the dark books of magic to show a paper trail, but if the reader wouldn't believe our personal testimony of what we experienced, then why would they believe the papertrail? What we write in this section are the inner secrets that throughout our life as a programmer we were involved in to do the programming. We understand that some readers may object to certain ideas, and we want to let the reader know that it is O.K. to question what we write. However, this may be your one and only chance to really understand the programming as an Illuminati programmer sees it. So, in the spirit of being helpful to the countless victims of Illuminati mind-control, and in the spirit of hope and openness, we are baring our secrets to the world. Therapists who read this are welcome to send us feedback when they find what we say is validated. If they don't find this validated in their work with the very deepest secrets of a system, then there is a good chance they just haven't gone far enough to find it yet.

Perhaps nothing is more baffling than how our minds work. Life is so complex that most of us give up trying to understand it. It is meant to be this way. The elite who have been gathering the mysteries of life for many thousands of years have wanted the common person to feel confused and overwhelmed. They have wanted the powers of darkness veiled from the people, so that they can use their

supernatural evil powers without competition. They have hoarded the best of science, magic, psychology and spiritual knowledge to themselves, and given mankind the crumbs. This isn't something new, they have been keeping secrets from the bulk of mankind for thousands of years. In a sophisticated divide and conquer strategy, the mystery religions were created to hide from the masses the existence, power, and worship of Lucifer. The Illuminati were not going to expose their power base. The Bible is correct that Lucifer was appointed a position of great authority. He understands what an anointing is. And he is skilled in copying that anointing. The Bible writers Isaiah and Paul (in FIRST TIMOTHY 3:6) wrote about how a jealous Lucifer was not content to cover God's throne, but he coveted God's throne. He was a cherub full of wisdom and perfect in beauty (EZ 28:12,14,15) At one point, he was the highest being created by God, and certainly far more intelligent than people imagine. Before we talk about what that intelligence has been able to do, let's hear from the other side of things. One of our Vol 2 readers wrote Fritz the complaint, "You give much much good information, but one wishes you would keep your religious beliefs out of it." Since Fritz did not push any denomination or organized religious group, one must assume that the chapters that quoted scriptures and spoke about demons bothered this reader. For the sake of discussion, let's assume that demons, ghosts, aliens, and angels do not exist. Let's assume for the sake of discussion that all the thousands of documented encounters with such beings did not exist. And finally, You are a therapist, and you sincerely want to help your client who has DID mind-control programming, but you don't want to deal with such things as demonology. Have you ever wondered what the deeper alters think? The deeper cult parts are not going to talk with you, because they know that they will not be listened to. It is extremely doubtful that you will ever meet the deeper hierarchy parts.

We have seen therapists scare hierarchy alters away from therapy in just this fashion. The therapist will not even know of their existence, even after years of hard work. As an agnostic or secular therapist, have you always felt antagonistic toward the supernatural? We can appreciate your fear at confronting something strange, new, and unbelievable, this is the same kind of issues that those of us who are DID must confront every day, as we work on the lies that have been programmed into us. Men are sent to the electric chairs on less evidence than has accumulated over the centuries about the existence ghosts, spirits, and demons. But we aren't trying to convert anyone to believe they exist. -But think about this, if you, the agnostic therapist, do get a hierarchy part who has been practicing powerful magic for years, learning on the astral plane, observing demons control ones s mind-control slaves who are under your authority, etc. what does the agnostic therapist have to offer the hierarchy alters? The hierarchy alters have power and prestige. They are not the alters that take the punishment and abuse. Why should they give up their spiritual power, for what? The point is, if therapists are not willing to give their hierarchy alters something good to replace their dark powers, and if the therapists don't have a spiritual power and spiritual plan that is stronger and better than the spiritual powers and rewards that control the hierarchy alters, then the therapists are not in a position to offer them freedom. By and large, there are extremely few therapists that publicly let on that they have a clue about spiritual captivity. Typically, they will patronize a victim who mentions a supernatural encounter, and add insult to injury by labeling the experience a hallucination. If the supernatural is only a hallucination, one wonders why the CIA has spent billions investigating the mind-control aspects of voodoo, astral projection, E S P, and other supernatural phenomena. The dark spiritual powers that control the lives of the hierarchy alters are

very real to these alters. And you will not succeed in convincing them that demons do not exist, when they have spent a life time working with demons, anymore than you are going to convince a dairyman that cows don't exist because you have never seen a cow. So therapists had better wise up, and get practical. Whether they believe in UFOs, whether they believe in demons, is rather irrelevant, they can still facilitate their client in obtaining help in areas that they do not have expertise. In the last few years, secrets that have been kept for many centuries are being released, but only in such a way that the uninitiated disregard the secrets. While these powerful occult secrets are being revealed, the masses are throwing away the foundations of truth that God has provided them through His Word. The masses see the power of the occult in New Age techniques that use disguised demonic power, but they do not see the dangers. As the world lets their guard down, more and more occult power is being declassified from the hidden mysteries.

While we were in the Illuminati, we witnessed numerous secret libraries that contained secret books that no one has heard of. Books like the 6th & 7th Book of Moses, The Spiritual Shield, Abdul-Kadir's Book of Power and recently publicly published Necronomicon have spirits attached to them that make them dangerous. To quote from the editor of the english translation of the dangerous Necronornicon, "an inconsistency that is to be found in many grimoires of any period and perhaps reveals a little of the magician's mentality; for there is very little that is evil to the advanced magus, who cares not if he deal with angelic or demonic forces, save that he gets the job done!" (Necronomicon, page 37) During our years as a programmer, we got the job done! Our programming alters did not get to see the world outside of the Illuminati. But if you the reader want to step into that world to see how the programmers think, you are

welcome to come with us on our guided tour. Let's cover some basics. We knew in the Illuminati that the earth was created. There were very specific ideas on how it all happened. Within Illuminati philosophy was the idea of dualism, that there was evil and good, and that you tried to balance your evil deeds with your bad deeds, as you climbed up the ranks of magic (spiritual) power. The Illuminati system is based on rivalry (free-enterprise in its most ruthless form), so there is no room for failure. We ate of the tree of knowledge that Satan promised to Adam that would make Adam into a god. The Illuminati adepts think that they are gods. They are illuminated and believe they are divine. When we worked with Illuminati programmers, we were working with people who believed they were gods and goddesses. They believed that they would be rewarded with the control of the whole universe as well as the means to do it. They also knew where their birthright came from and what their inheritance was. We will explain that shortly. In Exodus 20:5 we read, "...I, the LORD your God, am a jealous God, visiting the iniquity of the fathers on the children to the third and fourth generations of those who hate me..." One of the teachings that has been lost (thanks to the infiltration into Christianity by the mystery religions) has been who God meant by "the third and fourth generations of those who hate me." This was the third and fourth generation of those who rebelled without repentance against God Almighty. The real foundation for evil are the original generations that rebelled against God and established the foundation of the rebellion. This was Tubal-Cain, Zilah-bore and Jubal. This has been kept a secret from Christians, so they only work against their father's and grandfather's sins, rather than the real power base, which is Cain, Tubal-cain, and their master/deceiver Satan. Remember how important it was for Christ to atone for what Adam had done. Christ had to go back and repair the damage at the foundation, where the damage to mankind

had begun. The foundations of the rebellion against God are the foundations that the programmers go back to. Our inheritance and authority laid with the Powers of Darkness. Just as a Christian would inherit his Father's kingdom, we were to inherit the Prince of Darkness's kingdom. We served a powerful trinity made up of Lucifer (the authority), Satan (the covering), and the Devil (the evil spirit). This evil trinity of darkness was very well-known to us. The programmers called up the forces of Darkness to give us programming insights. The programming was the heartbeat of Satan and the systems we built into people's minds were modelled on what the programmers understood hell to be like. Every major programmer was a Grand Master or an Adept who was working his way up the ranks in magic power. Obviously, the lower level programmers could not command and place into a victim, demons that they could not magically control. This means that each system is going to reflect the spiritual level of understanding and power that its programmer(s) had. Let us step back and place our discussion of demonology on the shelf temporarily. What builds the ideas of right and wrong, good and bad within the human mind? The answer is certainly a very complex answer. Our self-concepts which govern how our minds make choices are very complex. In fact, the concepts of what is sin, right or wrong, and what and who we are, are simply vastly more complex than a child's mind can comprehend. Even common sense teaches us, that children are born innocent. The child's mind has been given the wonderful ability to focus on one particular role model (usually a parent) to put together a cohesive idea of values. Those values are very much attached to the signals we get as children from the important people we focus upon to learn values. Separating a child from a role model (i.e. isolating it from any parent or parent surrogate) produces disastrous results. The child has no model upon which to learn values. Without a role-model, the mind must

revert back to unlearned, built-in instincts. Does the reader begin to see how deep the destruction of the person is, when dissociated pieces must revert back to functioning on such instinctual unlearned values such as survival, because they have had no chance to observe and assimilate values, and if they do by chance assimilate values, they may well be those of the programmers! When the human mind (or a dissociative piece, or alter) functions and makes decisions only on the basis of survival, can the reader see how this opens the person up to control by fears? Deeper parts are prevented from establishing values that would question the control that demonic entities develop based on fear. The growth of mature thinking is the result of a complex chronological series of learning experiences. Even alters who have been hypnotically age-progressed by the programmer to see themselves as adults, have never had the opportunity to acquire mature thinking. Their thinking remain simplistic, because there have not been the complex learning stages that mature a person's thinking. Therapists do not realize that even "adult" non-host alters can have thinking that is very immature and basically survival-based. This doesn't mean that the therapist should initially confront the deeper adult alters by telling them that they are merely programming or immature—that would only damage communication. Given time out in the world on their own, they will begin to realize this on their own. What we are trying to say is that the demonology is attached to a defenseless mind. The structures that would normally develop so that the mind could ignore demon impulses have never developed. The natural development of a child to grow from innocence and purity into a rational moral person has been stopped. If it is difficult enough for a rational mature person to wrestle with demonic impulses, how much more so for a fragment of the mind that operates purely out of the reptilian-brain's instinct for survival. During the programming, the Illuminati programmers

would call up certain demons to help with the building of this hell in the victim's mind. The programmers will also place important demons into the victim that are attached to strategic places and functions. Allow us to expose some of these:

Abbadon-Abbadon is sovereign over the bottomless pit. Depending on what rank the programmer is at, depends on how the programs are put in. If Abbadon is not put in as a protector of the core, something similar will be done that mirrors the abilities of Abbadon. The 18-month old victim has Abbadon placed into them to "SEAL" (guard) their core. Oaths are given, that provide Lucifer the legal right to capture and hide the core away at this time. Abbadon will be tied to the programming at the base of the mind. The core lays at the base of the mind in a bottomless pit. This bottomless pit is cone shaped-which is the hidden reason that hour glasses are used. The hour glass is a cone shape that is similar to hell's shape. Hell is shaped like a cone. Surrounding the core will be River Lethe. The Lethe River is also known as THE RIVER OF FORGETFULNESS. This river surrounds the core, and protects the core from any alter getting close to the actual core. Depending upon who your programmer is, different imagery will be applied. The programmers always use water as a cleansing element to cause the mind to "clear itself" (clear from a deprog. viewpoint),"cleanse itself" (so-to-speak from a prog. viewpt.). The programmers will use waterfalls, swimming pools, or other bodies of water as their CLEANSING RIVER. To enter into the CLEANSING RIVER or the RIVER OF FORGETFULNESS means that the alter will not know who they are, what they know, or are seeking. If the core ever got strong enough, the River of Forgetfulness Program would hold her there in the base of the mind. The programmers will never access the core through the RIVER, but will go under the river or over it. The silver

cord that is hooked to the core then is ran under the RIVER OF FORGETFULNESS to every alter from the core. In only one particular instance, when a programmer was experimenting, did we ever see the silver cord get placed running over the river. In 99% of the cases, the silver cord will be run under the River of Forgetfulness. This has proven to be the most effective way to prevent any alter from seeing the core. The only connection between the core and the rest of the system is through the silver cords. It is invisible, especially since it is placed under the river, and assigned a spirit of invisibility. To cut that silver cord is to separate the core (and spirit) that gives life to the system. The system will die if the cord is cut. As any alter goes toward the core which is in the 9th realm, the alter will bounce off of the River of Lethe, forget what it went for, lose everything it is, and end up as clean slates in the 8th realm. The story of the Ten Lepers (LK 17:12) who came back clean is the programming story that pertains to this programming. All the alters except the one (the core) will go away as a clean slate, and only the one (the core) will return to its master (in this case not Christ as in the Biblical story, but the Divine Master, who is the programmer.) Should the core ever want to escape it would have to go through the 9 dimensions of Hell to free itself. While the therapists try to get to the core outside-to-inside, the core must go from inside-to-outside. The spirits are laid in from inside to outside, and we will describe the sections of hell, and the rivers from inside-to-outside. But the first barrier after the River is another River called "DARK HOLES" or in our System "THE RUBICON". The name Rubicon is so appropriate, because it is like Caesar when he crossed the rubicon, you do not come back. The name Dark Hole given by some programmers to this zone, is also appropriate, because you are sucked in and do not return. To cross the rubicon is to burn one's bridges to return. This zone is outer space, it is darkness, it is a pool of darkness.

An alter personality bounces off of this into a dark holding tank. The rubicon has 10 spheres (or levels) to it, and its shaped like an amphitheater. Another name for this layer is Malebolge. It holds 10 spheres for 10 classes of traitors to the programming. The spirit that hangs over this is Malebranche with his evil claws.

The dark holes are wells in the 8th realm. The wells are guarded by Titan demons who will prevent the alter from coming out if they are punished by falling into a dark hole (well).

Within an Illuminati system, you will discover hell. You will discover the rivers of hell which are the Styx, Acheron, Phiegethon, the Cocytus, and Lethe (which was already discussed.) Cocytus encircles the frozen marsh where the monstrous Lucifer is frozen up to his breastplate. Over the years when he tried to free himself, his giant wings produced nothing more than cold winds that froze the ice hard. Deep in an Illuminati system you may find the marsh land where it is cold. Not every programmer has a clear idea of how hell is, so the programming differs, but some type of equivalent of this will be found very deep.

Before providing the names of other demons attached to parts within an Illuminati alter system, allow us to explain how a system is set up from the programmers viewpoint. The programmer sees his inheritance coming from Lucifer. He believes he will reign with Lucifer in hell. Who would want to be a satanist if they did not think that they were going to get advantages from it. Satanists (and Luciferians-actually Illuminati hierarchy members are actually both depending upon the time and circumstances) actually think that they will get eternal rewards for what they are doing. They are very intent on pleasing Satan, and he is a very demanding god. From the programmers viewpoint, he is

reproducing Satan's kingdom within the victim—he is reproducing hell in the victim's mind. The programming is very much intended to be the heartbeat of Satan. The Illuminati at the top understand hell to have 9 realms. Recently a movie was made of the 7 deadly sins, a strange killer decides to kill people to expose to the world the horror of these deadly sins. Each of the deadly sins (pride, avarice, lechery, anger, gluttony, envy, sloth) each are said to have their own realm in hell. This has been a popular view for hundreds of years.

The section grid sheets that list alter grids with codes and the number of sections may not reveal the 9 realms pattern. The pattern is there, but a single realm of hell can be given several sections of alters if the programmer wants to. On the outer rim of the River encircling the 8th realm lie the important castles. There are 7 important Grandfather and Mother of Darkness castles. Some of the castles have gold pillars. There are also 7 important temples, such as the Temple of Moloch, where sacrificed babies are placed internally. The Mothers of Darkness and the Grand Master alters have to be able to enter into these internal castles, because they hold the spiritual demonic strongholds for the system. A front set of castles will be placed in the first realm to sidetrack deliverance ministries. The Mothers of Darkness and Grande Dame alters live in the 7th realm of Hell. The 7th, 8th, and 9th realms are considered lower hell. A ferry boat crosses the river that encircles the 7th realm (and the 8th and 9th). The protection for the hierarchy alters are the Delta alters that both male and female systems have placed in the 6th realm. The Delta alters are deadly. They will kill anyone including themselves! This is known as the sin of wrath. It is known as the realm of gloom. This 6th realm is protected by the river Styx. The 3-4-5 realms are not put to match the traditional schemes of Hell. A central computer section

with programming alters and their accompanying entourage of alters that make it all work, in a sense compare with the 4th level of hell where there is great gnashing of teeth. These alters have been extremely dehumanized in this area, and many are totally dissociated from any sense of having a body. Really most of them are beyond the gnashing of teeth stage, to the out-of-body stage of dissociation. The second ring of hell is the realm of lust, where the prostitute alters and strip-tease alters are placed, including male child prostitute alters in male systems. The sixth realm may have the capital city of Dis, where fallen angels are reported to be able to have their R&R. The River Phlegethan is filled with boiling blood. It is filled with dead tormented souls. Titan guardian demons guard the wells. The internal world will have dark woods with wild animals lurking about waiting to attack those who would be foolhardy to go through them. Somewhere in the deep reaches of the hell that Satan has built within the mind of the slave, there will likely be the capital city Pandaemonium, which is a palace with many gates and a large meeting hall. In fact, Pandaemonium may be an entire secret world within a mind-control system. The first realm of hell is the Limbo state, where non-satanic gatekeepers (who are pagan in outlook) float around in mental limbo. The programmers build streams and meadows and other things into this area. There are front castles built into this quadrant. It is separated from the front by the River Acheron. However, it is unlikely that any of the front alters and gatekeepers know the name of this internal river, because it is invisible and they are not told its name. They may feel its effects though. Behind the River Acheron will be kitten alters that have never lived outside of programming. And setting on top of hell on the surface is the front section. The front system in a typical Illuminati system will be a reflection of the world at large as it known. The front system will have anarchy-coven level witchcraft

alters, Christian alters, smart alters, stupid alters, child alters, possibly a token opposite sex alter, and perhaps even a few animal alters. In a sense the top is the widest part of the cone, that retreats into deeper darker levels of the mind (and hell that the programmer has created.) The front system will give the therapist plenty to work with. The front system will look like a chaotic but complete system. There will be a few witchcraft alters that will surface to explain the SRA. There will be a few abused alters who will surface to explain the abuse. All of this will help deflect from the real truth and the real secrets. There will be dozens of child alters to work with. The front system will be designed to hide the design of the entire system. If a therapist wanted to, they could easily spend the rest of their life working on issues of the front system. Some therapists have spent a decade on the front alone. The Illuminati generally appreciates having the front alters stabilized so that they can continue the horrendous abuse of the victim, without the system self-destructing. Skilled therapists know how to work vertically down into a system. There are methods, and we will not expose trade secrets, on how to descend into a system to get a particular alter. The reader can think to himself or herself, how do you pull up an alter, and how to you get one to leave. For instance, a non-sexual alter will dissociate and leave if you speak about sex. Think about things for a while, and perhaps you will realize how to get the deeper alters you want to work with. Be prepared to get demonic constructs that pretend to be alters, to shell alters, to get mirror images, as well as what you really want. After developing some skill you may even be able to begin to separate the demonic, shell alters and mirror images from the real thing. The skilled deprogrammers know who they need deep in the systems, they go for these alters, and then work with them. But it greatly helps if the front system has done stabilizing work, that has prepared them spiritually and psychologically so

that they can handle some “rocking of the boat”, if the therapist digs deep. There are certain alters that can assist more than others in dismantling some of the programs. There are two protector alters who are assigned to protect the deeper parts of the system. They are Lucifer and Dameon. Both of these protector alters (Lucifer, and the protector alter Dameon) will know part of the system. But bear in mind their assignment is to keep therapists away from the even deeper parts. So if they do cooperate with a therapist, their cooperation may be to sidetrack the therapist from the deeper parts, and they do not know the entire system. Every Illuminati alter system (100% of the systems while we were in) were constructed with a Dameon alter, which identified with and thought it was Satan/Lucifer. All male and female systems all a Dameon alter. (We suppose now that we’ve revealed this secret, they may change things, but for anyone programmed before this book came out, their system will have a Dameon alter.) The Dameon alter has three different names. In Fritz’s section he mentioned Data Entry Points of a system. This is an alter that can be used for quick access. During the child victim’s early years, the Illuminati programmers will take one of the first Gatekeepers, such as Gatekeeper 3 or 4, and will hypnotically show them the entire system. This is so they have quick access to the entire system. This is entirely done via hypnosis (and hypnotic drugs), so that the Gatekeeper no. 3 does not remember that it knows the entire system. Only via hypnosis can the programmer use this Gatekeeper to get to the entire system. After the Gatekeeper does its job, it is hypnotically told to forget.

What kind of thing might the gatekeeper know? The deeper parts of a system would be the All-Seeing Eye of the pyramid. The pyramid may rotate, and its rotation is controlled by a computer. By rotating, secret passageways are aligned. These pyramids contain “dead” alters (who

think they are spirits) and protectors such as Egyptian soldiers. The Eye itself is a secret passageway. Sometimes a 1-2-3 tap done 3 times opens the passage. If there is a purgatory in the system, as one approaches it there may be a silver veil wall, behind which may be hell in a system. The high capital of Satan in a system is often Pandaemonium. The palace has many gates and porches. The demons assemble in the palace for councils. Every altar has demons assigned and attached to it. Here are the names of common ones in an altar system. These are really family names, just like there will be a Susy 1, a Susy 2, a Susy 3, etc. Sometimes satanic programmers put their own twists on the way they pronounce names, these "play on words" help protect the programming. The VoL 2 book provides information on other important demons involved with the mind-control on pp 299-302.

Abduscius—This demon was involved with the tree programs, the roots of all the trees, such as the willow, oak, ash, yggdrassil, etc. The demon would be joined with the internal Singing Forest of a system. One can look for a familiar spirit connected to all this.

Abigor—This demon was involved with working with fragment parts that make war upon the system of altars. The child armies that protect the programming had this demon attached to them.

Abyss—This is a popular demon with Crowley devotees, and it also goes by the names of Absu, Nar Mattaru, Cutha, Kutu. This may be the internal underworld ocean. A system will have a deep ocean where things are hid.

Archeron—This is a demon who looks like a monster with flaming eyes. This demon was attached to the "eye in the

sky". A mirror image of this demon could be used to impart a mirror image to a part.

Adramalech-This grand chancellor demon is the supervisor of Satan's wardrobe and provides a likeness of the himself to the programmer. Adramalech is in charge of all the various costumes and outfits that the occult world use, such as your masonic ritual garments. Because there is one spirit over all this, the various costumes all work together for

Agaliarept -this demon is very important in the structuring, for this demon is used to call up the internal self-helper of the victim. This demon works with the ISH and the system to know what is going on in the internal worlds of the victim. The person's guardian angel (spirit) has been locked away to prevent interference to demons like Agaliarept. The programmers are very familiar with this demon. Another demon that works with the cult's ISH is Botis.

Aguares-These grand dukes of Hell are associated with dance, and have familiar family demons with Aguares that help the victim assume sexual gestures, special ceremonial dances that have to be done perfectly, and other certain steps.

Aim-This demon may be attached to the alters who are associated with fire, like Bonfire Child alters, Firechild, etc. He is a fire demon.

Alastor-The demonic executor of court decrees in hell is a guardian. When the system betrays the programming, he will declare the judgements on the system.

Amduscias-This demon of disturbing music continually plays the internal rhymes and riddles internally to reinstate

the programming if it is ever touched. This demon then is responsible for the programs to continue running. This demon is a unicorn whose internal music is in an alter system.

Amon-This demonic marquis family shows their faces to scare alters. It may appear like a man with dogs teeth and a head like a raven.

Andrealphus-If a victim has a peacock demon it may be Andrealphus.

Asmodeus-This demon is attached to create lust in the system, and marital discord.

Baal-This demon can make internal things go invisible. He can look like a cheshire-cat. He matches how things disappear in the Alice of Wonderland story, where only gold objects stay. He speaks hoarsely, and can appear as a toad, a cat, a man or all 4 at once. He rules over 66 legion of demons. He is a king demon ruling in the east, and important to Freemasons.

Baalberith-The is the chief secretary of hell who is attached to the internal library of an alter system. He will keep the records of the genealogy of the victim's Illuminati bloodline.

Barbatos-When a mind-control victim says, "I talk to my animals and they talk to me", this is the demon that carries out the voice of other animals.

Beelzebub-(See the article on the spirit Hydra below.) According to Illuminati beliefs, they must serve Beelzebub, and he in turn will reward them with financial wealth so that they can control and destroy the nations. They believe that Beelzebub only wants to be addressed in Yiddish or

Hebrew. Beelzebub demands souls in payment for his favors. It is not known, technically speaking, which manifestation of the false trinity will be the beast who will be worshipped by taking "the Mark of the Beast", but it may be Beelzebub who has demanded worship since antiquity. The Illuminati Sisters of Light are married in ritual to Beelzebub, while the Mothers of Darkness are married to Lucifer. Beelzebub is important to the upper levels of Freemasonry which do secret Luciferian rituals. There are a number of secret manuscripts of the Holy Book of Beelzebub located at important Masonic centers. The book is large, written in blood on

Behemoth-This huge demon who presides over feasting in hell is attached to cannibalistic alters who must perform cannibalism in rituals.

Beiphegor-This demon seduces men with wealth. He will be attached when the programmers use blackmail and bribery to insure that the victim goes the direction they want the victim to go. In a sense, he is part of the carrot (in the carrot & the stick tactics of the programmers.)

Blackwell-This demon is important for the mind-control, associated with dissociation

Botis-This viper demon is attached to the cult's ISH in the internal system. He knows the past and present things within a system.

Captaintto-A spirit involved with astral projection.

Changeling-This fairy demon is attached to child alters. The actual mechanics are that the child alter presents itself as a mirror of the child, and the child alter assumes that it is the this fairy demon itself. The child alter takes on the fairy demons identity, and then the fairy demon attaches

itself. The end result is that the child alter doesn't know what it is, or where it begins and the fairy begins. This creates an alter/demon construct, of which there are many within a normal Illuminati system.

Crocell-This demon makes the noise like rushing water that alters talk about hearing in their internal worlds.

Dantalion-A demonic duke who has many countenances. He is a joker within the system.

Decarabia-Appears as a star, and Pentacles is also a star appearing demon.

Flauras-This demon along with the demon Andras are attached to alters who must commit ritual murders.

Foras-This demon is knowledgeable. It can teach logic, the virtues of herbs, how to live long and supposedly how to become invisible. It can appear as a strong man in human form.

Forneus-This demon gives men the ability to have speaking in tongues and the ability to have gifted speaking abilities. He works with Renove, who is a demon who assists with demonic speaking in tongues and rhetoric.

Furcas-This demon teaches philosophy.

Furfur-This demon controls lightening, thunder and strong winds. He is attached to internal programs that are connected to internal weather phenomena. For instance, if a victim is having internal earthquakes, if the support person knows how to call up and command Furfur he can cast Furfur out, and stop the internal earthquakes immediately.

Guardians–Enforcer demons are put in place to protect the system.

Goblins–These are mischievous and ugly fairies that are placed internally to protect the rivers and secret places in the internal worlds.

Haborym–This is a demon of fire who is placed in control of the fire around the internal hell pit.

Haures–This demon hold the history of the fall of creation within the internal library.

Hydra– In the Illuminati, a member takes oaths to three demonic entities, Lucifer, Beelzebub, and Hydra. Who is Hydra? In the Christian New Testament, Hydra is described in the last book, Revelation 17:7-9. It is a beast with 7 heads. The Illuminati do ritual worship where they do special chants, and blood sacrifices, and bow seven times to obtain Hydra's presence. During rituals, when Hydra appears within the room, one of the ways Hydra communicates is by taps. When it taps 3 times, this means the third letter C, which also can mean "see". Later, after the child victim of mind-control has experienced the horrifying ritual of seeing Hydra appear and tap out its messages, the child victim can be taken in and programmed to special codes that are portrayed as knocks (taps). The ritual trauma memory is pulled up and used for a base for the programming. This is how the traditional 3 tap signal came to be. It is secretly based upon demonic communication. You will often encounter mind-control victims who are programmed to what they describe as morse code. The foundation for all this morse code programming was communication with the god/demon Hydra. Hydra by the way is also the god of Freemasonry, because Luciferians control Freemasonry. Hydra hisses like

a snake. A partial quote from an oath to Hydra would include, "...lead my arm, you have the supremacy of the universe, because you move it, all is your creation. Heaven and earth belong to you, which is fulfilled in your glory, which are images of your greatness and superiority. You are helpful protector of each of yours, you Enemy- of-the-crucified. In your name I curse God, the Trinity, Christ...In trust of your revelations, in the faith of your might above all Creation; visible and invisible things. I have the right to request and receive from you what you know." Hydra is acknowledged as the supreme master by a blood oath. You must sell yourself to Hydra totally, even to the point of suicide. In return you are promised honor, power, and wealth. The dragon also promises to give confidence to the pact-maker. As the Illuminati understand it, demons are only interested in soul-pacts or sutleges (pacts written in blood on paper that are swallowed).

Klotilde-This spirit demands that the slave never get involved in human love. To love with human love would be to suffer.

Knochers-These are tiny spirits who work in the internal gold mines. They are the Keepers of the Jewels. What are the jewels? The jewels are those parts created by master programmers such as Dr. Mengele, which are left as clean slates from which the programmers can build from later.

Leraje (Leraikka)-This demon is used for ritual battles.

Lucifer/Satan/Devil-This triad has Black/Red/Gold as their colors.

Malebranche-This is the demon with the evil claws that is a tormentor in the 8th realm. Readers will remember seeing

his presence in this author's collages in the Illustrated Guidebook to Monarch Mind- Control Programming.

Maleficia-This demon is not used internally, but is used when casting spells to hurt others. This demon is also employed to punish disobedient slaves.

Malphas-A builder of high towers. He may also get involved with the hypnosis.

Mammon-His family of demons creates the internal worlds, especially the palaces and towers.

Marax-This demon helps the Mothers-of-Darkness understand astrology. A Mother will lose her powers if he is removed.

Marbas-Demon attached to help the system heal, or get diseased.

Marchosias-This is a family of fighting demons. They work well with fighting alters.

Melchom-This demon is placed internally to oversee the internal treasures of a system. This demon is very secret and understands the Grand Druid Council.

Mulciber-This is one of the builder demons who helps construct the internal worlds. The programming scripture that applies is "Unless the Lord builds the house, they labor in vain." This scripture is misused to teach alters, that unless this lord (demon) is involved in the construction of something internal, the alters labor in vain, because it will only be a superficial temporary structure. To insure that all structures put in by a therapist are temporary, all kinds of alters and demons will scurry about in a frenzy to figure out how to destroy any internal structure that the therapist

& victim's alters try to build to oppose the programmer's control.

Murmur-This demon is in charge of the soul. He is connected to core issues. (See the article on the core to understand the core's issues.)

Navky-This is a Spirit of Murder that is tied to the sacrifice of unbaptized children.

Nebiros-This is a field marshal who is given command of the little robots alters and fragment purpose armies.

Nysrock-This is a demon chief in hell within a system.

Osculum infame-This refers to the Sabbat ritual that Mother's of Darkness perform where they "kiss the ass" of Satan, also known as the "Kiss of Shame".

Paimon-This knight spirit is very obedient to Lucifer and is used as an enforcer in an internal system. He continues to report back as to whether the internal worlds are intact or not.

Paymon-This demon is placed into alter systems of politician to give them the ability to speak in public.

Phenex-This demon is a poet who speaks to exorcists but supposedly does not need to obey exorcists.

Philatanus-This is a Spirit of Sodomy and Pederasty

Procel-This demon can make internal water freeze or boil.

Purson-This demon blows internal trumpets, and is believed connected to the revelator to the AntiChrist. He also knows the system.

Put Satanachia-Commander-in-chief of the call back army's in a system especially the army's that ride on armageddon horses. He will play an important role in the end times.

Raum- He destroys internal parts or internal cities.

Sabnack-This demon is attached to death programming. If a slave does the "unpardonable sin" against Lucifer and his programming then Sabnack helps insure that the heart of the victim will stop.

Seera-This demon is in charge of internal perceptions of time. He can make time fly at whirlwind speed or to slow down.

Seraphim- The highest order of the Heavenly host. Illuminati systems will have seraphim placed into them.

Shaba lidoma-This demon bring depression

Shax-This alter works with deaf and dumb alters.

Sitri-This spirit is used in the covens for sexual enchantment and nudity.

Speculum-This spirit is an internal crystal ball reader. He may also use mirrors.

Succubus-A female demon who preys on men sexually. This demon will be active during rituals.

Sytry-This demon is attached to stripper alters. It encourages women to show themselves naked.

Uphir-This demon heals in the name of Satan. He is placed into a system to help it heal quickly.

Volarire—A gatekeeper to a world or city, will play games to protect that part of system

Watchers—Demons attached to flying monkey alters who are used for observation in a system.

Zepar—This demon drives women insane. It is attached to insane programming.

It's really hard to describe spiritual things to those who haven't experienced similar spiritual things. We want to help people begin to get a feel for what works and what doesn't work. The following is a few minutes of a transcript of a deliverance. The deliverance minister has never been told anything about this person's alter system, but the Holy Spirit reveals that the system is 13x 13. The deliverance minister speaks about grace and love. He also does something very important: he teaches the alters how to put a spiritual canopy of protection around them so that they can sleep without spiritual attacks at night. The spiritual canopy that is built by this alter system ends up being helpful. Here is only a tiny portion of this deliverance session.

Alter: You can't love what isn't.

Support Person: They've had their hearts and souls taken away. Many of the things they need to be able to have a relationship with Christ have been stolen from them.

Alter: How did I get this two-headed beast?

Deliverance minister: You got it from the time of conception given to you by Dad. It is a two-headed demon. One of the heads goes back 18 generations, that would be about 400 years. The other head dates back 22 generations. Allow me to explain, there are 365 levels of

demons.... We need to walk in one accord. I realize your system has many of you who don't know how to, and also that there are many who don't want to.

Alter: God can't love us.

Deliverance minister: God will remove all the curses, all the spells, the garbage, the chains, the tar, the slime, the pain, the bondage.. .All these things which carry bad feelings, pain and unbelief will be taken care of. Each curse carries memories....

Alter: How did our light side even know Christ with those demons?

Deliverance minister: It's because of Grace, amazing grace. [Then the deliverance minister explains how demons imitate alters and play roles within an alter system.] Father we come before your throne, strengthen the canopy about this house, and purify it with your holy fire. We ask that you seal and cleanse this room with your holy blood, and every object about us, and each one of us. Seal and cleanse us with your blood. Purify us with your fire. I acknowledge the diamond shaped head that encapsulizes her head and is filled with your essence. Will you fill that diamond head with the blood of Jesus Christ. I recognize that this represents your eternal ownership of this body. Father, we acknowledge that you love them no matter what. Father, I'm glad you love them, even the alters who don't know that you love them. Remove any demonic shields from these alters and send them to the abyss. Father, bind Lucifer from interfering. Set some warring angels about us to help. Thank you. Father, I ask for every anointing that we need for this work. I ask you to acknowledge all three of your servants. Order our thoughts. Keep this floating diamond

over her Lord. Now fill up her System's 13 by 13 by 13 grid right now with your blood. [End of quoted material.]

We have watched deliverance ministries in action, we have visited and heard other deliverance ministries give reports on what they have done, and we have seen what works for us. What we have seen is that some of the better ministries are on the basic right track and are able to help in some important areas, but by and large there is little depth to what most Christians are doing, and some blindsides. We can also add some of our own first hand observations. Our own master was far more concerned about deliverances being done to our system, than he was for a psychiatrist to work with us. But we also have a view of things from having been on the other side, that is from the programmers viewpoint, and we can honestly say, that the programming is so far reaching, that the mind-control victim could use a chiropractor, a medical doctor, a psychologist, a guard, a prayer partner, a friend, and a deliverance minister. This is why we applaud the few groups that have established safe-houses and teams of people to assist mind-control victims. The type of issues we write about in articles like this are enough to challenge support teams who are working with well stabilized programmed DID's who have worked on issues for a while.

The removal of foundational programming can take several different avenues, but there are several constants in how to fight the programming. The stronger a person's alters are spiritually, the better they will do. The healthier a victim is, the more chance they have to survive the debilitating effects of the programming. The more humor, rest, and internal peace the recovering victim has, the better they will do. Morale is important. The morale of the support team is essential. The therapist has to have a strong conviction that hope exists for the victim, and the victim

needs to have this hope conveyed to them. The will to resist needs to be fed. We know that this is nothing new, but it is so important that we don't want to neglect emphasizing it. The reader will find many suggestions and hints within this book on routes to take to dismantle the programming. Where there is a will, there is a way. Sometimes the victim will lose the willpower, and that is where the support team must pick them up. Let's not kill our wounded, instead let's dig into ourselves to find the resources to minister to them even more. We know of some ministers who have justified dumping programmed-multiples because at some point they didn't meet the minister's criteria of wanting to work on issues. There were times when our system didn't want to work on issues, but we're glad Fritz didn't give up on us. On the flip side, we also believe that support teams and therapists need to take a serious look at who they decide to invest time helping. The unfortunate truth is that our time and energy is limited and we should choose sincere candidates who are capable of success.
