

THE FIFTH GENERATIONAL WAR CRIMES AGAINST YOU AND HUMANITY: A Study of the Oligarchs' Current Fifth Generation Warfare

By Fritz Springmeier

You've been seeing this Fifth Generational war. It's ever present, but it's likely you didn't have a name for it. This article will not only clear up what's going on, but its approach should naturally reveal the answers, that is, make the answers self-evident.

Some military men began calling this Fifth Generational War against humanity "the Oligarch's War". It uses an entirely new form of warfare, which this article will expose. In the course of the article, we will answer such questions as: Who is THE BANK OF INTERNATIONAL SETTLEMENTS and What are these C B D Cs they are instructing the Central Banks to create?? Who is the Federal Reserve? And they said [that...] they wanted to break things, what do they want to break?? You'll see the significance of these questions as the article progresses.

One of my areas of study has been a cabalistic cabal who call themselves the Illuminati. The term those military men used to describe these same people fighting today's war is "oligarchs"; a term, which may be an easier word to handle, for those new to the subject of who runs this World. After all, the definition of oligarch means someone who rules, so by definition, those running the World are "oligarchs", rather like the term bronchitis which means an

“itis” (pain from inflammation) in the bronchi. My books expose who these rulers are and their organizations.

In 19 95, I gave major talks before large audiences in twelve large American cities where I showed charts illustrating how various systems, such as the health care system, the food system, and the political system were controlled by this oligarchy. This article will not re-plow that ground. I can take a second to disclose or remind people that groups like medical schools, big pharma, regulatory groups like [censored...], and secret enforcement groups like the Medical Strike Force, C C H I, and N C H F make up part of the control of the health care system. In the Food system, one sees monopolies over beef, grain, the N.A. bullhide market, etcetera, and regulatory groups like [censored...], price manipulators, and a host of other controls, even extending to the G P S controlling farmers’ tractors. As to the financial system, it will be discussed in part in this article on Fifth Generational Warfare.

It’s reported that Klaus Schwab (in charge of the Illuminati’s WEF (WORLD ECONOMIC FORUM) and George Soros (a WORLD ECONOMIC FORUM member) are saying [that] they want America destroyed. Both are Illuminati members; and the WORLD ECONOMIC FORUM itself is an Illuminati-run organization, which sees the head of the Illuminati regularly attend their Davos, Switzerland meetings. (By the way, Switzerland has been an important place for top Illuminati activity for centuries. For instance, the Ascona Meeting. in 19 17; as well as recently the high level 20 03 meeting at Gstaad, M I 6 Project 26 activities at Gstaad, western Europe’s largest Deep Underground Military Base in the Spiez-Meitingen area, and the yearly Davos meetings just south of Liechtenstein, a principality whose respected Prince in charge is an Illuminati member.

Switzerland's relationship to the elite oligarchy is a topic in itself. (And... I'm sorry if this sidenote digression on Switzerland was not helpful.)

So, we're involved in a fifth generational war fought by the Illuminati oligarchy against humanity. It's being fought entirely differently than past wars. It weaponizes everything to destroy us. Of course, disinformation and social engineering are weapons, but so is every system of control: the healthcare system, the food system, the educational system, the religious system, the judicial system, the political system, the financial system, and the mass media system. All are weaponized against the common man: none are your friends. So let's describe this term Fifth Generational Warfare.

The term 5 G W "Fifth Generational Warfare" has been around since 20 08. An example of its use is the book *The Handbook of Fifth Generational Warfare* (edited by Daniel Abbott). By way of disambiguation, the term has nothing to do with 5G wireless. Let's cover the different generations of warfare so the term makes more sense.

FIRST GENERATIONAL WARFARE. Since ancient times a nation (or empire) would mass their troops into a phalanx, or legion, or column, or other mass [formation], and then they'd fight eye to eye, mass to mass with their opponent. You can see this style in Mel Gibson's movie *The Patriot* when the American Revolutionary Army faces and fights the British redcoat army. Uniforms were colorful in this first generation.

SECOND GENERATIONAL WARFARE. With the advent of repeating breech loading rifles, machine guns, and fast combined arms units, the concept of a mass [formations] of troops facing another mass of troops became impractical. It

was replaced with small groups using cover and concealment. Uniforms went from colorful to camouflage. Radios came into use to coordinate widely dispersed units. Industrial technology made wars into economic struggles to out-invent and out-produce the other side. This second generational warfare is also called Industrial warfare.

THIRD GENERATIONAL WARFARE. With the introduction of missiles, air forces, helicopters, paratroopers, air-mobile troops, and [the] blitzkrieg maneuver of armored forces, linear warfare ended. The battlefield became more like 3 D chess. This generation is called late modern technology and is characterized by maneuver, speed, and flexibility. Small units are given great flexibility to operate.

FOURTH GENERATIONAL WARFARE. This is used for the decentralized guerilla warfare seen by the American forces in Afghanistan. I (and others) would argue this is not a new generation, and it has always existed since history began. I would argue that Spartacus' slave revolt and the Filipino Insurrection when the United States took over [control of the Philippines] from Spain would fit the label of Fourth Generation. So would countless other guerilla wars throughout history [be described as Fourth Generational Warfare]. I didn't create these terms. I use them because the term Fifth Generational Warfare aptly describes what the World's Oligarchs are now waging against us.

FIFTH GENERATIONAL WARFARE. This Fifth Generational Warfare is totally different from all the others. It uses every means to attack and destroy except kinetic [actions]. Kinetic [actions] means bullets and bombs. So this warfare includes cyber attacks; it includes destroying a nation's morals and culture; it includes destroying a nation's economy; it includes modifying [the] weather; and tampering with [people's...] self-image. An example of this

is what Red China has been doing to the United States for two decades. Red China has been an instrument for the Illuminati to destroy America. In 2014, six of the seven big Chinese banks were controlled by the Illuminati. One example of this is how they have established Maoist-groups basically in all United States colleges called Confucius Institutes. Other examples include their theft of our technology, their undermining of our economy and politics, their degrading and destruction of our culture, and how they set up the A I I B to replace the INTERNATIONAL MONETARY FUND. But China is only part of the Fifth Generational Warfare picture. Our own systems are against us. One could observe this during the Scam DEMIC.

When we realize that all these systems of control are weaponized against us, we realize we must find alternatives to them. HEALTHCARE: We need to find alternatives (as best as possible) to the healthcare system. Alternative medication has been gaining ground. FOOD: We need to grow our own safe food, and, if not, then find safe alternatives from safe sources. EDUCATION: We need to homeschool, or work online for necessary degrees. We need to identify how our minds are under attack and how to protect them. The RELIGIOUS system: We need to distrust mainstream groups and leaders like Billy Graham who was made "Man of the Year" by the controlled press. We need to distrust world leaders who claim all religions are equal. Check this out: The only beliefs attacked by Satanists are beliefs in Christ and the Bible. We should focus on Christ, not man as our source of divine help. The JUDICIAL system should not be trusted, nor the FINANCIAL. The POLITICAL system is not going to save you. Christian Churches will have negative consequences for being corporations of the state (i.e. 501 C 3). And as a final comment, we need to have alternate means to get our news as the MAINSTREAM

MASS MEDIA is weaponized against us. It truly is an Infowar as Alex Jones has named it.

Sun Tzu's classic "The Art of War" advises "know the enemy". That is what this Satanic Oligarchy is doing. The Illuminati have an agenda to depopulate the planet and install their world ruler, and they are practicing the know-your-enemy advice in an extreme way. Most of this spying (data collecting) is done secretly and managed by the BEAST computers. We'll examine that a little later. But some of it is an open secret. The WORLD ECONOMIC FORUM calls for A C D (Alternate Credit Decisions), which is billed as something good for minorities. Companies like Yodlee, which collects "alternate data" on 33 million people to sell, openly collects [information] on people. What kind of data? Yodlee openly states: "all sorts of data". This digital data will form a digital profile that will be attached to your digital I.D. Does the reader smell a rat here?? One of the top companies that gathers data on millions is an Illuminati-run corporation P W C (Price Waterhouse and Coopers and Lybrand) under I B M. They provide [information] for "Stakeholder Issues" for the big corporations.

So an example of what they will do to us is what happened in Afghanistan and Iraq. DARPA tried to track all males in those nations with Biometrics. All this was in preparation for today's Fifth Generational Warfare against humanity. They began this data collecting as a war against the "HUMAN TERRAIN" in Iraq and Afghanistan.

For those who don't know about DARPA (Defense Advanced Research Projects Agency), it is headquartered in Arlington, Virginia [United States of America] and has around 120 program managers running programs globally. DARPA is secret. It works with the N S A and the C I A,

both of which are daughters of the Illuminati. Other daughters of the Illuminati include M I 6 and the F B I. This helps explain why the current F B I director Christopher Wray goes to the WORLD ECONOMIC FORUM in Davos [Switzerland]. Wray in 20 04 was exposed participating in illegal surveillance. Bill Bamford's book The Shadow Factory helped people understand illegal domestic surveillance better, [how government groups] used "warrantless surveillance" under the cover of Bush's "Terrorist Surveillance Program", which when exposed became [renamed the program] P R I S M [PRISM].

So DARPA in conjunction with the N S A and C I A, and assisted by the military, began a comprehensive biometric data collection program in Iraq and Afghanistan. 1 point 5 million Afghan men and 2 point 2 [million] Iraqi men had their biometrics collected. The United States military obfuscated [disguised] these [operations] in their war colleges as "moral prosecution of war", and the [mainstream media] told the public that it was a "hearts and minds campaign"! Ha! You take a person's D N A and eye biometrics, etcetera. and call that [a] "hearts and minds campaign"!?! Data from these [operations] were stored in a mega data base called "MAP-HT" (which means "mapping human terrain").

Now MAP-HT teams work globally. Here in the United States, Human Terrain mapping is called PRISM (which was exposed by [Edward] Snowden). Health care providers and social media contribute data for PRISM's mapping the human terrain.

Remember JADE HELM 15? It was a military drill for the collapse of the dollar. And [know that its next level sequence military research operation was coded...] JADE HELM 16 [and] was "Mastering the human terrain"

[mastering it after mapping the Human Terrain]. The [United States] military calls this “unconventional warfare,” and it is; it is Fifth Generational Warfare!

So let's switch gears to examining the FINANCIAL system, another system that accumulates data on us and is weaponized against us while appearing to be our friend. It is part of this Fifth Generational Warfare Oligarch War against us.

At the bottom level of the banking system are the commercial banks. We had 4844 commercial banks according to the F C I C's 20 21 statistics. There used to be many more than this. The year I graduated high school, there were approximately 14 thousand. When I was born, there was over 13 thousand. What happened? The big banks gobbled them up, like a tuna eating small fish. Recently, First Republic Bank in Washington [State] was the second largest bank failure in United States history. It was gobbled up by J P Morgan Chase (“J P Morgan” for short). First, the United States government seized First Republic. Then they sold it to J P Morgan [for] pennies on the dollar, and J P Morgan looks like a hero rescuing the situation. The cost of all this is socialized to the United States taxpayer. Yet, and this is a big YET, J P Morgan Chase was not legally eligible to take over First Republic because they already [administer] over 10 percent of this nation's deposits. (Hey, what are laws to the Federal government, even the Constitution doesn't stop them!?!)

So why should you or I care that we went from 14 thousand banks to less than 5000? It makes it easier for [population] control and to roll out Central Bank Digital Currencies. Central Bank Digital Currency (C B D C) will give [the Illuminati, oops I mean Oligarchs] total control over all bank accounts and spending. It will give the controllers the

ability to silence dissent. They could force vaccinations and the use of electric cars. They could control travel. They could implement a “social credit rating” to punish people who don’t follow every order of the government. It will be total control [God forbid]. You will not be able to buy or sell, just as the Bible’s book of Revelation prophesied! (More on Central Bank Digital Currencies in a moment.)

Another big bank, Bank of America (B O A), has also swallowed up smaller banks. It was started by the Gianini family but is now controlled by Warren Buffet via his Berkshire Hathaway. I believe Warren Buffet is an Illuminati member. He’s friends with Bill Gates, who is an Illuminati member. They play bridge together. Bill Gates is also the recipient of Jeffrey Epstein’s services, and he essentially single-handedly financed and implemented Common Core. Now [Warren] Buffet lives frugally and gives his philanthropic money to the Bill and Melinda Gates Foundation.

In contrast to the Bank of America, a commercial bank started and then operated by a single family to serve the middle class, the Berenberg Bank, a private merchant bank, was started by a single family (the German noble Berenberg-Gossler family) for elite merchants. This German Illuminati family, the Berenberg-Gossler family, founded and have owned Berenberg bank since 15 90. They later founded Norddeutsche Bank, which was the predecessor to Germany’s central bank, Deutsche Bank.

Above the local banks are the central banks, for instance Deutsche Bank and the Bank of England (associated with the Rothschilds) and our Federal Reserve Bank (associated with quite a few Illuminati families, including J P Morgan who helped found it on Jekyll Island [Georgia] along with a bunch of other Illuminati types). The private owners and

controllers of the Federal Reserve (America's central bank) have been shrouded in secrecy since its inception. It is neither Federal nor a reserve. In recent times [the Federal Reserve] has been quietly funneling trillions of dollars to the elite. Blackrock, an investment firm for the Illuminati, also controls big banks including Deutsche Bank. Judging from Blackrock's C E O Larry Fink's attendance at top Illuminati meetings, it can be deduced he is a member. You might say the Federal Reserve is [one channel] of the Illuminati Oligarchs, for the Oligarchs and by the Oligarchs. And this Federal Reserve has publicly said they want to break things. What do they want to break?

They want to break the United States Treasury and the little banks. And this will move us [Americans] towards the police state that the WORLD ECONOMIC FORUM and the Illuminati want.

In our fractional banking system inherited from ancient Babylon, the local commercial banks create money out of thin air by making loans to customers. The Federal Reserve also magically makes money out of thin air, which [it loans] to the United States government and [receives] interest from the United States government for this magically made money. This process is supposedly shown in the film "Zeitgeist Addendum", which I have not seen.

By the way, while I am discussing these things, I will flesh out the picture. Many of these Illuminati kingpin bankers live on Northshore, Long Island, New York, in mansions and castles. Each year, the central bankers from around the world are invited to attend a basically secret conference put on by our Federal Reserve at Jackson Hole, Wyoming (which is one of the elite's watering holes). The Illuminati created the European Central Bank, and its current President Christine Lagarde is high up in the

Illuminati, something like a Grande Dame. She previously was the INTERNATIONAL MONETARY FUND's director, and her predecessor Dominique Strauss-Kahn and her replacement were Illuminati. While we are mentioning the INTERNATIONAL MONETARY FUND, it happens to be the next level above the central banks, in the system's hierarchy.

Above the central banks operate the INTERNATIONAL MONETARY FUND and the B I S (Bank of International Settlements). The INTERNATIONAL MONETARY FUND is headquartered across from the White House in Washington, D C, and [the] BANK OF INTERNATIONAL SETTLEMENTS [is headquartered] in Switzerland. The INTERNATIONAL MONETARY FUND has 189 nations as members along with Kosovo (which is not a full nation). It is connected to the U N. The BANK OF INTERNATIONAL SETTLEMENTS was established in 19 30 and is a technical agent for international trade, which is where the Illuminati actually quietly make most of their money. [The] BANK OF INTERNATIONAL SETTLEMENTS plays a key role in global finances and has recently sent out a Handbook on Central Bank Digital Currencies instructing all the central banks how to create and operate their Central Bank Digital Currencies. This will be the end of all freedom. The top three levels of the FINANCIAL banking system are working hard for Central Bank Digital Currencies.

They need to justify their Central Bank Digital Currencies. Banks are quietly preparing for trouble this summer. Things point to July [20 23]. The United States government is close to defaulting and shutting down, unless some economic magic pulls the rabbit out of the economic hat.

There are various economic signals and indices that show the United States in trouble. For instance, the P M I

(Purchasing Managers Index), which measures the strength of manufacturing activity in the United States [shows that] we're in the fifth month of contraction, which means America is producing less and laying off the work force. We also see a volatile stock market teetering on crashing. That's where we're at.

Don't forget they've criminalized homelessness with H R 5 7 4 1. We have the "Civilian Inmate Labor Program", which is described in detail in Army Regulation 2 1 0 - 3 5. This works with Executive Order 1 2 9 1 9, which can [authorize government agents to] confiscate your property and place you in a Civilian internment camp.

You've probably heard the famous quote by [Mayer Amschel] Rothschild that he doesn't care who makes the laws of a country, if he controls the money. In spite of our [United States] Constitution, our government officials do what they want. Money talks and is more powerful than laws on paper, which become mere words on paper if there are not sincere, honest people to implement and live those words. How well I remember a group of policemen in Oregon City, Oregon, back in the 90's mocking the [United States] Constitution in front of me. When the people who must enforce the Constitution feel it is excrement, then America is certainly in excrement.

The government of Nigeria came out with Central Bank Digital Currency, and the Nigerian people rejected it. The House in North Carolina unanimously voted to ban digital currency as payments to North Carolina. And Ron DeSantis rolled out legislation to protect Floridians from Central Bank Digital Currencies. It's great that he is warning about Central Bank Digital Currencies, but continue to bear in mind that all these systems are weaponized against us, so caution needs to be exercised in thinking the POLITICAL

system will save us. Nigeria's response, [when] the people simply refused to use the C B D C's is an example we need to follow. The bottom line: Globalization is a house of horrors, and this Fifth Generational Warfare Oligarch War against humanity threatens our lives and freedoms. Fight it with all your spiritual, physical, and mental might.
